SCS - SUPERVISION AND CONTROL SYSTEM

SURVEILLANCE AND PROTECTION IN A CHEMICAL INDUSTRY

THE CUSTOMER REQUIREMENT

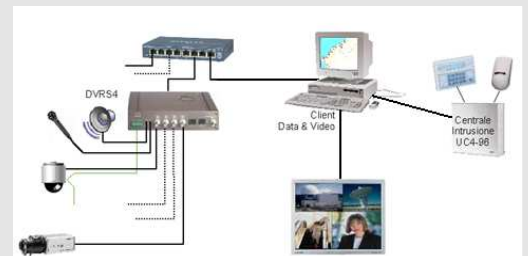

The customer requirement was to equip a chemical industry warehouse with a system able to manage:

- **anti - intrusion alarms**
- **video surveillance**

THE SOLUTION

The system is made up with:

- **20 cameras**
- **192 anti-intrusion sensors**
- **1 SCS client**

CUSTOMIZATIONS

The customer was concerned about the opportunity that the PC with SCS Client installed would have been used for different purposes than the Security Center Supervision.

In order to avoid this possibility, Windows features have been locked directly from the program.
