

## SCS - SUPERVISION AND CONTROL SYSTEM

### VIDEO SURVEILLANCE IN A STADIUM

#### THE CUSTOMER REQUIREMENT

The customer requirement was to equip Catania stadium with a system of video surveillance in order to bring it up to the new Italian code in the subject of stadium security.

Authorized Laboratory  
Ministry Instruction  
University and Research

#### THE SOLUTION

The system is made up with:

- **39 cameras**
- **2 SCS clients** (full control workstations)
- **3 Remote SCS clients** that allow police station, emergency department and firemen station to directly access to live images
- **7 SCS players** (video terminals for shoots visualization)

#### CUSTOMIZATIONS

To improve the potentiality of supervision tools, the customer has required a new feature that allows the visualization of zoomed images with camera control directly on the secondary monitor on a dual display video card. The secondary viewer is called the **player dome**.
